

ELMA 45 LAN Cable Tester

- Test a wide range of UTP cables such as 10Base T, 100Base Tx, 10Base 2 (Coax), 356A, TIA-568A, TIA-568B etc.
- Can tests for wiring faults such as open, short, reversed, crossed and split wires
- Can identify up to 4 different cables at one end by provided remote identifiers
- Double digital 14 segment LED and 4 pair LEDs clearly display the fault status
- Provided over voltage (max. 56V) protection to prevent damage from miss connecting to live circuit of networking
- Simple and effective use
- Auto power off

Technical Data

Display	Double digital 14 segment LED
Connector	RJ45, BNC
Cable Pairs	1/2, 3/6, 4/5, 7/8
Fault Status	Open, Short, Reversed, Crossed, Split and Low Battery
Test Cable Length	min: 1.2 m max. 150 m
Power	9 V Battery
Dimension	170x52x38 mm
Weight	approx. 180 g

Scope of Supply:

ELMA 45	Cat.No. 63 98 204 774
Elma 45	
1 pc. patch cable (RJ45 to RJ45)	
1 pc. remote identifier	
1 pc. Manual
